
**ADVICES ON CHECKS AND CLEANING
REMOVABLE DENTAL PROSTHESIS
VIVA FLEX PARTIALS L.F.**

www.vivaflexpartials.com

AUTHORIZED SERVICE

Technical assistance in the event there is a damage to the dental prosthesis can be carried out by the professional who applied it or by the staff of the manufacturer Dental Flex Italia S.n.c..

Checks

Periodically it is necessary to control the prosthesis. To do this you must:

- Wash the prosthesis at least twice a day, especially after meals.
- Brushing the prosthesis **VIVA FLEX PARTIALS L.F.** with a normal toothbrush under running water.
- It is advisable to carry out periodic checks on the device at least every six (6) months, unless introducing subtle acts of God.
- If the prosthesis monsters plaque buildup or smudges, due to a NOT correct oral hygiene. It is important for the doctor to send back the prosthesis laboratory that manufactured the same; they will be able to perform cleaning or mechanical.

Routine cleaning

At least two (2) times a day, conduct the normal oral hygiene by washing the teeth. Use conventional toothbrushes and toothpaste.

Take care of your new prosthesis VIVA FLEX PARTIALS L.F.!
